Art Unit: 3634

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Group I Claims 1-17, drawn to stackable or nesting containers, classified in class 220, subclass 4.27.
- II. Group II Claims 18-23, drawn to a rack in combination with a set of nestable or stackable containers, classified in class 211, subclass 49.1.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
